2) In the specification, page 2, in the "Cross-Reference to Related Applications", line 2, after "August 29, 2002, ", - - now US 6,664,420,- - is inserted.

3. The following is an examiner's statement of reasons for allowance: The closest prior art is WO 97/16188. The reference on page 66, compound 24 is structurally similar to claimed herein. However the definition of R6 in herein is different than the pyridine portion of the reference structure. Also, R3 in herein is alkyl as against alkyl substituted by cyclohexyl. One of ordinary skill in the art would not have arrived at the claimed compounds using the prior art, hence instant claims are patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
